

AIR FORCE

Radiographer

Forget the regular hospitals, this position will have you working with state of the art equipment in varied locations throughout Australia.

Additional Information

WHAT YOU COULD EARN

In the Air Force you'll receive a competitive salary, generous Super and an excellent range of benefits. You get paid from the day you start training and your salary will increase with rank and experience.

RADIOGRAPHERS

can earn over
\$ p.a.

Job Details

Graduate, Undergraduate

Air Force radiographic capability is a component of RAAF Operational Health Support facilities providing medical imaging services during major ADF exercises and deployments away from fixed facilities. As a RAAF radiographer, you will be based primarily at one of the two Air Force Expeditionary Health Squadrons at RAAF Bases Amberley or Williamtown. You may also be required to support the Royal Australian Navy Maritime Role 2 Enhanced health capability and participate in tri-service and multi-national operational and peacekeeping deployments.

RAAF Radiography duties are similar to those practiced in the community, but with an operational focus.

Professional support and supervision is provided for RAAF Radiographers through the Radiology and Radiation Safety Cell. Post graduate training and clinical work in civilian tertiary hospitals may be provided as part of a comprehensive training and professional development program. There may be some after-hours work.

Specialist Reserve

Radiographers are an integral element of the Royal Australian Air Force Specialist Reserve (RAAFSR) which is designed to provide a broad range of health services to complement and supplement those maintained in the Permanent Air Force (PAF).

Radiographers are responsible for providing radiography services at RAAF Bases around Australia. A radiographic capability

is also a component of RAAF Expeditionary Health Support facilities which provides medical imaging services during major ADF exercises and deployments away from fixed facilities. As a RAAF radiographer, you may also be required to participate in tri-service and multi-national operational and peacekeeping deployments.

Radiography departments have modern, well-maintained equipment and facilities, including portable ultrasound units and mobile image intensifiers in some locations. Radiological support is arranged through contract with civilian providers, although the Medical Imaging Consultative Group, a tri-service group composed of Reservist and full-time ADF members, provides advice on matters affecting the provision of radiography in the ADF. There may be some after-hours work.

Entry

Graduate

The Royal Australian Air Force has a huge job to do including keeping the nation's air defence capabilities operational, providing a search and rescue function and assisting in times of national emergency. If you are already a degree qualified professional, and looking for a job that offers satisfaction, excitement and a challenge and the opportunity to utilise and further develop your management and leadership skills, then you may wish to consider a career as an Officer (Graduate Only) in the Air Force.

Degree qualified officers normally start their careers at one rank higher than non-graduate officers.

Undergraduate

The Air Force sponsors suitable applicants to undertake tertiary studies at a civilian university in an Australian State or Territory after successful completion of their first full year of study.

Successful applicants are usually appointed to the rank of Officer Cadet and paid at that rank while studying full-time, with increments granted on successful completion of each year of study. However, the granting of a higher rank will be dependent upon the degree course studied and the year of study on entry.

Undergraduates are members of the Permanent Air Force and as such, all normal entitlements are available to you including access to Service Residences, living in on-base accommodation, removal benefits and Rental Allowance, under the same guidelines which apply to all Air Force members. Entitlements vary according to your family structure, availability and type of accommodation on base, and the proximity of this accommodation to your university.

You are entitled to necessary medical, dental, hospital, optical, physiotherapy and ancillary treatment without charge.

You will be issued free uniforms, clothing and accessories at the scale applicable to officers performing part-time duty.

Upon graduation and commencement of full-time duty, you will receive additional issues to outfit yourself to the normal scale of issue. Undergraduates are not entitled to free exchanges of uniforms.

The Air Force will authorise payment of all compulsory fees for the year in which sponsorship commences and continuing for the duration of the approved course of study.

A student receiving benefits from the Australian Government as a full-time student will have these benefits withdrawn from the date Air Force sponsorship begins. Books and equipment already provided may be retained.

Subject to approval, you will also be reimbursed the costs of prescribed textbooks and equipment essential to your course of study.

The Air Force will also pay tertiary institution fees and Student Contribution Charges for as long as the student remains in the Service. An obligation to serve in the Air Force for a period of one year for each year of sponsorship, plus one additional

year, is required before sponsorship is finally approved. This means that a three-year degree sponsorship will attract a four-year return of service obligation on completion of degree studies.

Note: Sponsorship is not available to applicants who are already in receipt of sponsorship via schemes such as the rural and medical bonded positions.

Full-Fee Paying Students

The Air Force will accept applications from full-fee paying students for undergraduate sponsorship. Full-fee paying university students will be reimbursed the equivalent amount of HELP entitlement for that degree stream. The refund will be the highest amount specified in the government-approved, student contribution range for each degree stream as displayed at <http://myuniversity.gov.au/>.

Failure during Degree Studies

If you fail an examination and are unable to progress to the next academic year or graduate, your appointment may be terminated (recovery of costs including fees, salary and books would usually be initiated in these cases). Approval may be given for the student to repeat the year at Air Force expense, provided that the failure was not due to a lack of application on the part of the student.

Leave

Undergraduates may be granted trainee leave during semester breaks. For the remainder of the year they must be involved in formal academic studies or be employed on such duties and courses as determined by RAAF College.

Specialist Reserve

The Royal Australian Air Force Specialist Reserve (Air Force SR) is comprised of volunteer members who are highly motivated towards the Air Force and their Reserve commitment. The role of the Specialist Reserve is to provide on an on-call basis, selected professional services that are not otherwise retained permanently in the Air Force.

Entry into the Air Force SR is by selection to fill available vacancies. Officer entry into all elements of the Air Force Reserve is by competitive selection, and is on the same basis as for entry into the PAF.

Attendance Commitment

Air Force SR members are to perform a minimum of seven days Reserve service in each financial year but may perform considerably more than this on a voluntary basis as tasks and opportunities arise. The minimum seven days service is primarily used to maintain Individual Readiness compliancy which is a requirement for any specialty training and deployment.

The maximum number of days of Reserve service within a financial year for members of the Air Force SR is 150. Members may only be paid for those days that have been approved by their respective sponsoring authority.

Annual Activities

Air Force SR members are expected to maintain a required standard of health, fitness and military preparedness, which will be assessed on an annual basis. This will include the requirement for Air Force SR members to maintain proficiency in weapons handling.

Discipline

Air Force SR personnel are governed by exactly the same discipline code as members of the Permanent Air Force. Applicants should carefully consider their adaptability requirements such as the wearing of uniforms, saluting, drill and the requirement to display a high standard of dress and bearing.

Uniforms

Members of the Air Force SR are entitled to a free issue of uniform upon appointment. Each issued item has a life expectancy and the item may be exchanged for a new one after this time. The Chief of Air Force (CAF) has determined that during any prescribed form of service, Air Force SR members are on duty and must wear uniform.

Medical and Dental

Members of the Air Force SR are only entitled to emergency medical and dental treatment while on duty.

Further information on part-time ADF careers can be found by accessing the [Defence Reserves Support Council website](#).

The Council promotes the benefits of Reserve service by establishing partnerships with the community and employers.

Pay & Allowances

Graduate

Salary on joining the Air Force will be \$56,953 per year (\$2,184 per fortnight).*

Uniform Allowance at a rate of \$682 per year (\$26 per fortnight) is paid to assist members to maintain an approved scale of uniforms in good order and condition.

In addition to your salary, you will receive Service Allowance of \$12,924 per year (\$497 per fortnight) except while undertaking Military (Initial) or Employment training. This allowance compensates a member for the unique requirements that service life may impose on an individual and his or her family.

Salary will continue to increase based on rank and the number of years of service completed in that rank. Refer to the **Salary Scales** for further details.

* Please note that these figures do not include compulsory deductions for taxation; meals, accommodation and utilities (as applicable); or superannuation.

Undergraduate

With 4 years to graduation: \$29,854 per year (\$1,148 per fortnight).*

With 3 years to graduation: \$35,282 per year (\$1,357 per fortnight).*

With 2 years to graduation: \$40,710 per year (\$1,566 per fortnight).*

In final year: \$46,138 per year (\$1,774 per fortnight).*

To assist you in maintaining your uniforms in good order and condition, you will receive a Uniform Allowance of \$419 per year (\$16 per fortnight). This increases to \$682 per year (\$26 per fortnight) after commissioning.

Salary (excluding allowances) on completion of military and employment training will be:

\$57,807 per year (\$2,223 per fortnight).*

In addition to your salary, you will also receive Service Allowance of \$13,118 per year (\$504 per fortnight) except while undertaking Academic, Military (Initial) or Employment training. This allowance compensates a member for the unique requirements that service life may impose on an individual and his or her family.

Your salary will continue to increase based on your rank and the number of years of service completed in that rank. Your pay grade may increase following the acquisition of additional skills and completion of further training. Refer to the **Salary Scales** for further details.

Trainees with dependants may be entitled to Trainee's Dependant Allowance which is paid to enable trainees with dependants to receive a salary not less than \$43,766 per year (\$1,679 per fortnight) while training. Conditions apply. Speak to your Careers Counselor for details.

* **Note:** These figures do not include compulsory deductions for taxation; meals, accommodation and utilities (as applicable); or superannuation.

Specialist Reserve

Members of the Specialist Reserve on part-time service are paid at a daily rate of pay which is tax-free. Salary will continue to increase based on rank and the number of years of service completed in that rank.

Daily rates of pay for commissioned Air Force Specialist Reserve Officers commence at \$156.04 but vary according to profession and rank.

In addition to your salary, a Reserve Allowance of \$13.15 per day is payable to compensate for the unique demands of Reserve Service.

Refer to the **Salary Scales** for further details.

General Requirements

Age Requirement

Graduate

Applicants must be a minimum of 17 years of age on day of entry. Maximum age on entry is 56 years of age.

Undergraduate

The maximum age for entry is such that an applicant must be able to complete their degree, any periods of postgraduate experience, or professional development placements and their Initial Minimum Period of Service obligation incurred under the Scheme prior to compulsory retirement age (normally 60 years of age).

Specialist Reserve

The compulsory retirement age (CRA) for Air Force Specialist Reserve officers is 65 years. The Minister may on one or more occasions extend the CRA age for serving Reservists.

Citizenship Requirement

Only Australian citizens are permitted to serve in the ADF.

If you are a Permanent Resident of Australia, the ADF may consider a temporary waiver of the citizenship requirement if

the position for which you are applying cannot be filled by an applicant who meets all the citizenship requirements, and then only in exceptional circumstances. You will be required to obtain Australian citizenship as early as possible following enlistment or appointment.

Find out more in our [Recruitment Centre](#) or ask your local Defence Force Recruiting Centre.

Security Requirement

The Department of Defence requires ADF entrants to attain a security clearance appropriate to their avenue of entry. Details on the security requirements for all Air Force jobs can be found [here](#).

Aptitude Requirement

The application process to join the Australian Defence Force requires you to complete a series of aptitude tests which may include verbal, spatial and numerical ability and a general maths test. Some jobs may also require you to complete additional testing at a later date.

Psychology support staff will explain what is involved with each test.

The aptitude tests provide information about your suitability for the Defence Force and for particular jobs. Defence Force Recruiting can then help you identify jobs that best match your abilities.

Further information on the aptitude testing requirements can be found [here](#).

Education & Experience

Graduate

Applicants for appointment as a Radiographer must qualify by possessing a tertiary qualification as follows:

- Associate Diploma in Diagnostic Medical Radiography;
- Bachelor of Applied Science in Medical Imaging Technology; or
- Any other tertiary qualification accepted by the Australian Institute of Radiography.

And

- by having a postgraduate Professional Development Year of Clinical Practice or equivalent as accepted by the Australian Institute of Radiography;
- by possessing a Statement of Accreditation in Diagnostic Radiography establishing eligibility for Ordinary Membership of the Australian Institute of Radiography; and
- by possessing a Radiation 'Use Licence' issued by a State or Territory of Australia under the relevant Radiation Safety Act.

Undergraduate

To be eligible for an Air Force Undergraduate sponsorship, applicants must have completed:

- Year 12 with passes in English and three other Board of Secondary School Studies registered subjects; and
- the first full year of study (preferably with academic results) of a full-time Applied Science degree in Medical Radiation Technology majoring in Medical Imaging or Diagnostic Radiography.

You may apply after successfully completing the first semester of your first year of university studies. However, entry will

be conditional upon successfully completing your first year of tertiary studies.

Specialist Reserve

Applicants for appointment as a Specialist Reserve Radiographer must qualify by possessing a tertiary qualification as follows:

- have successfully completed a Diploma or Degree in Medical Imaging , as well as a Professional Development Year and have at least 2 years post graduate experience; and
- have, or be eligible for, accreditation issued by the Australian Institute of Radiography in the form of a "Statement of Accreditation" or "Conjoint Board Diploma/Certificate"; and
- possess a Radiation 'Use Licence' issued by a State or Territory of Australia under the relevant Radiation Safety Act.

Medical & Fitness Requirements

Graduate, Undergraduate

To be enlisted or appointed, you must be medically and physically fit for entry to your chosen occupation. This is partially assessed from the completion of an extensive questionnaire covering your medical history, followed by a physical examination.

You will also be required to successfully pass a physical fitness test before appointment.

For further details on medical and physical fitness standards refer to [Physical Fitness Standards for Entry into the ADF](#) and [Medical Process for Entry into the ADF](#).

Specialist Reserve

To be enlisted or appointed, you must be medically and physically fit for entry to your chosen occupation. This is partially assessed from the completion of an extensive questionnaire covering your medical history, followed by a physical examination.

You will also be required to successfully pass a physical fitness test before enlistment.

For further details on medical and physical fitness standards refer to [Physical Fitness Standards for Entry into the ADF](#) and [Medical Process for Entry into the ADF](#).

Period of Service

Graduate

When you embark on a career as a Radiographer through Graduate Entry you'll be appointed for an Initial Minimum Period of Service (IMPS) of three years.

Subsequent periods of service may be offered subject to ADF needs and your suitability for further service. You may tender your resignation at any time provided you do not have an outstanding IMPS obligation and give a minimum of three months notice.

Undergraduate

You will be appointed for an Initial Minimum Period of Service (IMPS) dependant on your length of sponsorship. Subsequent periods of service may be offered subject to the requirements of the ADF and your suitability for further service. You may tender your resignation at any time provided you do not have an outstanding Initial Minimum Period of Service obligation and provide a minimum of three months notice.

The length of IMPS in total will depend on the duration of sponsorship. Any requirement for post-graduation experience, eg: medical residency, legal articles will be incorporated in your IMPS.

Your Careers Counsellor can advise on how IMPS will relate to your chosen occupation.

Specialist Reserve

A person appointed as an officer in the Air Force Specialist Reserve serves an initial appointment of five years (including a probationary period of two years) followed by extensions (subject to approval) of five year periods.

Additional Requirements

Graduate

Experience

Evidence of post-graduate practical experience in Medical Imaging is desirable, although not essential.

Experience with ultrasound equipment and procedures would be an advantage.

Military Training

Graduate

Initial Officer Training: 17 Weeks

Immediately upon joining the Air Force, direct entry officers will normally undertake the Initial Officer Course of 17 weeks duration. This is a live-in course completed at RAAF Base East Sale, located 220 kilometres east of Melbourne (VIC).

The major elements of the course involve introduction to military life, Air Force Values and attitudes, Ground Defence and Weapons training, Leadership and Personal Development, Communication Skills and Air Force Operations studies.

Further details on officer training are available on the [Officers Training School](#) website or refer to the [Joining Instructions](#).

The information on the website and in the Joining Instructions will provide you and your family with enough information to arrange your personal affairs before appointment in the Air Force and give you an overview of the structure and requirements of the Initial Officer Course.

During Military (Initial Officer) Training and (Initial) Employment Training (if applicable), members may be required to pay a contribution towards meals, accommodation and utilities.

Undergraduate

Initial Officer Training: 1 week + 17 Weeks

During your first year of sponsorship you'll attend a one-week Familiarisation Course at RAAF Base East Sale, VIC. This will introduce you to basic military protocols and procedures.

Then following graduation you'll undertake a 17-week Initial Officer Course to learn about Air Force values and attitudes, and engage in:

- ground defence and weapons training,
- leadership and personal development,
- communication skills, and
- an introduction to Air Force operations.

For further details on officer training refer to the [Joining Instructions](#). The information in the Joining Instructions will provide you and your family with enough information to arrange your personal affairs before appointment in the Air Force and give you an overview of the structure and requirements of the Initial Officer Course.

During Military (OTS) Training and any subsequent (Initial) Employment Training, members may be required to pay a contribution towards meals, accommodation and utilities.

Specialist Reserve

Specialist Reserve Officer Familiarisation course: 6 days

You will be required to complete officer training at RAAF Base East Sale, VIC, within two years of appointment. Find out more about the School here:

Officers Training School

You will also be given as much general service and induction training as practicable, consistent with the limited time available and the need to employ you in your specialist field.

Employment Training

Graduate, Undergraduate

Operational Health Support course - 2 weeks.

Training in the provision of Operational Health Support is provided at the Operational Health Support and Training Flight, RAAF Base Richmond. The aim of this course is to provide an introduction to the deployable health capability and equipment.

Standard Combat Survivability course - 1 week.

Air Force Radiographers may also be required to support the RAN Primary Casualty Receiving Facility. One week's training in Standard Combat Survivability is provided at the RAN School of Survivability and Ship Safety, HMAS Cereberus or HMAS Creswell. The aim of this course is to enable members to undertake combat survivability duties at sea under supervision.

Ultrasound

Post-graduate Ultrasound training for selected Radiographer applicants is available through Defence sponsored studies. Studies are completed in partnership with civilian universities. This training is provided to enhance the deployable Medical Imaging capability.

Specialist Reserve

Operational Health Support course - 2 weeks.

Training in the provision of Operational Health Support is provided at the Operational Health Support and Training Flight, RAAF Base Richmond. The aim of this course is to provide an introduction to the deployable health capability and equipment.

Employment Location

Graduate, Undergraduate

You may be posted to any Air Force Base within Australia or possibly overseas, although overseas posting are limited.
