The Army is made up of different specialist branches, called Corps, which perform various different functions such as Administration, Catering, Communications, Health, Armoured, Artillery, Engineering, Infantry and Transport.

General Entry (Non-Technical Trainee) soldiers graduate from recruit training with the rank of private and generally progress to private proficient after 12 months effective service following completion of initial employment training. Further promotion to corporal, sergeant and warrant officer is based on performance, the length of time spent in a particular rank and vacancies and will normally require the successful completion of trade and promotion courses.

Corporals (Bombardiers in Artillery) are referred to as Junior Non-Commissioned Officers, or JNCOs, while sergeants are referred to as Senior Non-Commissioned Officers (SNCOs). Warrant Officer Class One is the most senior soldier rank. A corporal will normally have some responsibility for the supervision of junior staff and this progressively increases on promotion to sergeant.
